Pathways to Play Early Learning Center does not use blankets or quilts with infants in our cribs, as it is advised by the Minnesota Visiting Nurse Association as a precaution to prevent SIDS (Sudden Infant Death Syndrome). If you would like your child to sleep in his/her crib with a blanket, you must give permission by signing below:

I hereby give permission for my child to sleep with a blanket at the center. I have been advised by PTP staff and understand that the recommendation is for infants to sleep without blankets to prevent SIDS. I am making an informed decision to allow my child to sleep with a blanket.
